

DP CONSULTING

— Human Resources since 2008 —

(Senior) Business Analyst (m/f/d)

Place of work: Zurich

Securing processes at top reinsurer

Our client, based in Greater Zurich, is a successful global player in trade credit insurance. With a long tradition and high-quality standards, this dynamic company offers innovative trade credit and surety solutions as well as reinsurance products. For the reinsurance operations department, we are looking for a

(Senior) Business Analyst (m/f/d)

Your tasks

- As SAP FS-RI Super User you are responsible for the support of the group-wide reinsurance systems and processes
- Promote and facilitate reinsurance operations tasks while liaising with technical accounting and reinsurance controlling teams
- Close collaboration with reinsurance underwriting team in implementing change management activities
- Lead digital transformation projects associated with organizational and transversal reinsurance activities
- Act as key contact for reinsurance operations processes for specific regions
- Analysis and evaluation of system and processes changes. Making sure that its clients' rules and principles are well captured in our IT (mainly SAP) tool
- Development of results-oriented solutions for complex reinsurance cases
- Monitoring and training new stakeholders on reinsurance systems topics

Your qualifications

- You have obtained a master's degree in computer science/IT or insurance/finance
- As a business analyst, you have at least 5 years of experience in project management and accounting activities, in similar sectors
- Affinity with SAP, Microsoft or Oracle systems
- Proven process and change management skills (ITIL Foundation)
- A deep understanding of analytical reporting tools (flair with numbers)
- Experience in interface design and maintenance
- Evidence of driving major projects
- Excellent English skills (written and spoken)

Your benefits

- Member of an international and dynamic team
- Numerous development opportunities within the area of responsibility
- Attractive employment conditions
- First-class trainings for your personal development

Put your customer-centered mentality and your distinctive analysis and system knowledge to work in the matrix environment of a successful reinsurer. We look forward to receiving your application at careers@nellen.ch or to bewerbung@dp-consulting.ch.

You can rely on our discretion.
